Instructor Comments

Describe the one best thing about the recitation section or the instructor that was effective in helping you learn. If you could suggest one thing to improve the section, what would it be?

- Watching the problems being solved were super helpful and very well explained
- n/a
- Recitation was nice because it broke down some of the more difficult components of the class, specifically game theory and allowed for us to ask individualized questions in a small setting.
- Francis was very patient. However, in my opinion, he had a hard time explaining the course concepts, making it hard to learn from him. The grading of assignments were also very, very late.
- The instructor explained concepts very well!
- amazing at explaining, I loved the breakdown on how to do problems exactly, and very responsive to students needs, really great for helping me learn!
- Francis was really nice. I think that he did a good job in all honesty, even when it came to providing us resources, etc.
- The instructor uploaded slides. One thing I would suggest is to include all information talked (including diagrams that were drawn on separate files) about in recitation on slides or on separate handouts that are easily accessible
- When the instructor would use their iPad to draw out the games it was very helpful. I think the instructor could have benefitted from being more involved with students rather than just lecturing to them.
